Mergers & Acquisitions

Our attorneys are aware of the financial realities of growing a business. When a client's money is at stake, we are cognizant of the issues involved in closing a deal.

Whether a transaction is centered in the U.S. or crosses national borders, we help structure deals, arrange financing, negotiate agreements and manage risk. Our team's knowledge and experience has benefited clients in mergers, acquisitions and sales of various types.

With bilingual attorneys who are experienced in international law, we represent our clients in complex cross-border matters and counsel businesses on various aspects of a deal, including finance, securities, antitrust regulations, and taxation.

We work with buyers, sellers, investors and others to expand operations and open new markets in Florida and across the globe. Specific matters include:

- mergers, both negotiated and contested
- acquisitions
- asset sales and purchases
- stock sales and purchases
- tender and exchange offers
- leveraged buyouts
- joint ventures
- recapitalizations
- proxy contests
- anti-takeover strategies
